

## Speech and Language Therapy Advice for Roisin.

Roisin is currently working at P3ii in Speaking and Listening. Roisin is able to give a symbol / photo matching a desired object or activity out of a choice of 4 symbols independently. She is able to discriminate new symbols or photos as they are introduced. She now needs to widen the range of activities that she will choose from using symbols.

Roisin also needs to increase the circles of communication that she will engage in with adults. Again using favoured activities with some sabotage will enable her to practice this more frequently.
